Dale Rosenbach, DMD, MS

Diplomate of the American Board of Periodontology
917-842-6078

Dr. Dale Rosenbach received his undergraduate degree in biology from Yeshiva University and his dental degree from New Jersey Dental School. After completing a general practice residency at Woodhull Medical Center in Brooklyn, he attended Columbia University for his postdoctoral training in periodontics and implant dentistry, completing a master's degree focusing on the effects of abutment dis/reconnection on initial peri-implant bone loss. Dr. Rosenbach is a Diplomate of the American Board of Periodontology.

Dr. Rosenbach has been published in Dentaltown Magazine, Dental Products Report, Dentistry Today and Journal of Implant Dentistry and serves as the head of project for WikiProject Dentistry on Wikipedia. He is also an educator for RipeGlobal.

Dr. Rosenbach is an internationally-recognized educator and has presented over 250 lectures spanning more than 1000 hours of continuing education on topics related to periodontics, implant dentistry and adjunctive surgical procedures. He has been invited to speak for both local CE groups and national dental organizations across North America and has been listed in Dentistry Today's "Leaders in CE" since 2018. Dr. Rosenbach maintains a practice limited to periodontics and surgical implantology in the NY metro area.
